UX Solution Provider

## ABOUT

I want to work in a professionally grown environment where I could implement my skills and have growth opportunities. I wish to have a career in my life that always helps me in increasing my knowledge and performing research so that I can assist in boosting my own career and further contribute to the growth of my company and country.

## EXPERIENCE

I have more than 8 years of experience in UI/UX and Graphic Design. During this period I have worked on multiple projects and products with different clients and companies.
